

Construction Update 9/22/24

Village of Granton

Update on County K/Main Street project and mailboxes

Dear residents

The project is moving along on time.

American Asphalt will be paving the first layer on the week of **September 23rd-27th**.

The second layer will be paved in the **spring or early summer of 2025**.

As a result, we ask that you **continue to use the mailboxes on 2nd street** over winter. Otherwise, it may be difficult and dangerous for our plow equipment to keep the mail path clear for delivery and pick up. We appreciate your patience as we continue this road construction and look forward to the completion of a new Main Street for our small town.
